***Analysis by the Legislative Reference Bureau***

This bill provides that for Southeast Wisconsin freeway megaprojects, major highway development projects, and state highway rehabilitation projects for which the Department of Transportation spends federal money, federal money must make up at least 70 percent of the aggregate funding for those projects. The bill provides that if DOT determines it cannot meet this requirement, DOT may submit a proposed alternate funding plan to the Joint Committee on Finance for review under its passive review procedure.

The bill requires DOT to notify political subdivisions receiving aid for local projects whether the aid includes federal moneys and how those moneys must be spent. The bill prohibits DOT from requiring political subdivisions to comply with DOT requirements relating to the facilities development process for projects on which no federal moneys are expended.

For further information see the ***state and local*** fiscal estimate, which will be printed as an appendix to this bill.
